

The RagBox® is designed to stop a wide range of items from entering a vacuum sanitary system.

- Significantly eases the process of removing foreign objects
- Easy access via the lid opening mechanism
- Made of recycled plastic material
- Offers a dosing unit connection
- Very low risk of spillage

6   Cap .....	037506442*
7   Pipe Seal, ø50mm .....	034512578*

\* Component/s available as replacement parts.

## Appendix: Dosing Unit Connection

Two dosing unit connections are available on the RagBox® and either one can be used to connect the dosing unit hose.

1.

Remove the cap from one of the hose connections (one available on each side) and drill a Ø3mm hole through the connection into the housing.

2.

Connect the hose from the dosing unit to the hose connection.

3.

Secure the hose with a cable tie.
