

TO WHOM IT MAY CONCERN

Valbrenta, 28/02/2024

**DECLARATION OF COMPLIANCE WITH REACH REGULATION (EC 1907/2006)**

This declaration certifies the full compliance of our articles with the requirements of the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Geo&tex 2000 Spa is classified as a producer of "articles" in accordance with article 3, paragraph 3 of the REACH Regulation, which means that we do not produce substances or preparations and our articles do not intentionally release substances. Therefore, no registration, pre-registration or authorization is required for our products, nor is the creation of safety data sheets required for articles, but only for substances or mixtures.

With reference to article 33 of REACH, we declare that there are no substances of very high concern for health or the environment (SVHC) in concentrations higher than 0.1% w/w in our goods. Furthermore, regarding Article 67 of REACH, we affirm that our articles do not contain any substances subject to restrictions of use according to Annex XVII of the REACH regulation.

From 5 January 2021, the Waste Framework Directive (WFD) requires suppliers of articles to notify in the SCIP database the presence of substances of very high concern in concentrations above 0.1% w/w. We warrant to perform this notification, should it become necessary, and to communicate the relevant SCIP notification code.

As the REACH Regulation is regularly updated, our company constantly evaluates any significant changes, such as the inclusion of new SVHC substances or substances subject to restrictions, and update this declaration accordingly.

In the absence of a new declaration, it is assumed that what is stated in this letter is still valid.

Luca Mocellin
